

Envelope Bag for storing/transporting fibre art

- Cut one piece of fabric (width of artwork +2") X (height of artwork x 2 + 8")
Eg. If artwork is **16 x 20"**, cut fabric 18" x 48" (**16 + 2**) x (**20 x 2 + 8**)
**See diagram #1*
- On both short sides, press under 1/4" and then another 1/4". Stitch this down.
- Right sides together, fold over 3 1/2" and pin in place. This is the top of the bag.
- Fold the whole piece (with fold in place) in half length-wise, right sides together. Keep the 3 1/2" fold inside; the wrong (inside fabric) side will be showing on the fold piece.
- Stitch 1/4" seam along both sides (leaving the fold inside). **See diagram #2*
- Turn right side out, poking out the corners. Flip the folded piece out to create an envelope closure. Press.
- Don't forget the label.
